How it works:

Unique combinations of 3 Pro Football Teams are printed on each ticket for every week of the Professional Football Season.

A different set of teams is printed on each ticket for each week of the 17 week regular season. *No two tickets are alike for any given week.*

After each week's games are played, each team's score will be input into our computer program and your unique three team combination will be totaled.

The high and low point totals from all sold tickets are winners – 16 winners - \$1,225 each week of the regular season.

Your ticket for week one has
Pittsburg, Kansas City, and Tampa.
They each score 52 points so your
ticket has a total of 156.

You have the highest ticket total
point scored and win \$500.

For weeks 2 through 6 your teams do
so-so and you do not win anything.

On week 7 you have Dallas, Houston
and Denver and they each get shut
out, so your ticket has the point total
of 0.

Your ticket has the lowest total
points scored and you win \$100.

.....And so on.....through 17
weeks of the Professional Football
Regular Season.

Each week your teams change but
your chances to win are the same
each week.

We pay down 8 places from the top
scores and 8 places up from the
lowest scores every week! - \$1,225.
